

Static Data of WEGs to be submitted by members to IWPA

Name of Windfarm			HTSC No.		
WEG ID			Date of Commissioning		
Make of WTG		Model No.		Rated capacity of each WTG (in MW)	
WTG Coordinates:	Latitude		Longitude		Tower Type
Hub Height (Mtr.)		Rotor Dia (Mtr.)		Blade Length (Mtr)	
STU Injecting Station Name			STU Stn. Voltage Level (kV)		
Distribution Circle			Location Village Name		
Feeder Name			Coordinates of STU pooling station	Latitude	
				Longitude	
Feeder Capacity			Coordinates of Developer PS / Windfarm	Latitude	
				Longitude	
Feeder Connected Load			LVRT Provided (Yes / No)		
Wind sensors are provided for	1) Wind Speed		2) Wind Direction		3) Temperature
				4) Humidity	
CMS* / SCADA			Contact Person Mobile No.		

Yes / No - Please circle the relevant and strike out the irrelevant

***CMS** - Computer Monitoring System

Note: If more than 1 WEG is attached to a SS, the details may be given by typing in separate sheets
