IWPA Circular No.185 of 2016

Dear Members

Sub: Grid drop of wind mills in Tamil Nadu
Kind Attention: wind mill owners / operators in Tamil Nadu

We have received numerous complaints about grid drop of wind mills from our members who have wind mills in Tamil Nadu. This grid drop is taking place especially when the winds have started blowing good in the last 24 hours.

We have made representations to the CE NCES and the SE REMC today. We were told that due to widespread rains in several parts of Tamil Nadu, the loads have dropped substantially and that there are numerous breakdowns.

The authorities have assured that the breakdowns are being attended to and wind mills will be made to run at the earliest. We will continue to make our representations and try to restore generation.

Thanking you and with warm regards

Yours faithfully
For Indian Wind Power Association

(Prof. Dr. K Kasthurirangaian)
