IWPA Circular No. 302 of 2019

Dear Members,

Sub: Curtailment of Power from Renewable Energy based generating Stations

Based on representations made by IWPA, the Chief Engineer (RPM), Central Electricity Authority has convened a meeting at New Delhi on 7th January, 2020 to enforce the issue of "must run" status for Renewable Energy. A copy of the letter is attached to this circular for your ready reference.

In his letter, the Chief Engineer has sought information regarding backouts from April 1, 2019 onwards. The formats are replicated here for the convenience of members:

Format for Curtailment Data

Table A:

Sl. No.	Generating station Name, Location	Injection Point (CTU/STU) and name of substation	Month	Total Curtailment (MU)	SLDC

Table B: Day Wise / Hourly / Block wise data

Date	Time Block /hr	Curtailment in MW	Duration of Curtailment (Hrs)	Written Instruction (Y/N)	Reason of curtailment	Instruction of curtailment in MW to individual generator or System wide % curtailment
1	2	3	4	5	6	7
Total Curtailment in MU	=SUM(3*4)/1000					

Members are requested to provide the requisite information to us at iwpahq@windpro.org in the formats given on or before 02/01/2020.

Mr. A.D. Thirumoorthy, Chief Technical Advisor would be representing IWPA at the meeting.

Needless to state, the quality of results that emanate from the meeting would depend on the quality and completeness of information that we provide. The quality and completeness of data is entirely in your hands.

Accordingly, we request all member organisations to respond with timely and accurate information to enable IWPA address the issue of curtailment / backdown and enhance evacuation.

Thanking You,

With Best Wishes & Regards

For Indian Wind Power Association

(Prof. Dr. K Kasthurirangaian)
Chairman
