helping mankind with energy from nature

IWPA Circular No. 5 of 2022-23

Dear Member,

Subject: Sale of Carbon Credits / VCS Credits from wind farms registered in 2008-09.

Our association took up the initiative to benefit our members on sale of carbon credits which predominated in the year 2008. Accordingly, as desired by majority members we had fixed up M/s. Deloitte India to facilitate the sale. Many of our members showed interest in the scheme and volunteered to sell V.C.S. (Verified Carbon standard) a modified form of carbon credit and had their wind farms registered.

As per M/s. Deloitte, only 8 bundles of V.C.S of 70.305 M.W. of only 58 wind farms could pass the stringent statutory norms of the foreign buyers and get registered. These 8 bundles were sold through Deloitte and these registered wind farms (58 nos.) got the VCS money.

After 2009 there was a lull period on sale of V.C.S. and foreign buyers were practically nil. Recently buyers have to come to buy their generation from 2009 -2016 from the same registered wind farms (VCS Project) was brought out to us by a techno commercial party Ms. Emergent Ventures India Pvt Ltd., hereafter called EVI.

The registered projects and volumes are:
